

Installation

- Download the file `newmat10.tar.gz` in the website:
`http://www.robertnz.net/`.
- Create a new folder `newmat10` in your current directory and unzip your file.
- Uncomment the line `#define use_namespace` in your file `include.h`.
- Install your package by typing:
`make -f nm_gnu.mak`
- For more information go to `http://www.robertnz.net/nm10.htm`.
